

## Statusreport SEL 17/3

For this week our group tried to set up our systems to be ready for development. It turned out to be more difficult than expected. Every member ran into multiple issues of which some of them we could not resolve ourselves. Some members arranged private meetings with Antonios, who introduced us to their environment, in an attempt to resolve these issues. One of those meetings has taken place already. The issues however, have not been resolved yet. Another private meeting will take place on the 18<sup>th</sup> of march in the afternoon.

### Environment setup backend

	Luca	Severin	Raphael	Marko	Marco
OS	Mac, Mojave	Ubuntu 20.04	Windows 10/Ubuntu 20.04	Windows 10/ Ubuntu 20.04	Windows 10/ Ubuntu 20.04
Vagrant	YES	YES	In progress	YES	YES
Virtualbox	YES	YES	In progress	YES	NO
Issues	issue: can't find ./manage.py file	none		Sudoers file missing. Private meeting could not solve issue either.	Vagrant can't connect to virtualbox
Environment	In progress	Fully setup	In progress	In progress	In progress

### Time invested

	Luca	Severin	Raphael	Marko	Marco
Learning required programming languages	4 hours		16 hours	2 hours	
Environment Setup	30 minutes	5 hours		12.5 hours	10 hours

We are hoping that the second meeting with Antonios, which we have arranged for tomorrow, will resolve the remaining issues regarding the setup. Thus the estimated time for the completion of the task is around 2 hours.

Completion of setting up the environment is delayed. The project however is not endangered as further meetings in order to resolve the issues have been arranged.
